

Gray Davis, Governor

STATE CLEARINGHOUSE

NEWSLETTER

April 16 through 30, 2001

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **April 16 through 30, 2001**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte and Karen Fowler (for projects in Northern California)
Scott Morgan and Brian Grattidge (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Turn off lighting in areas not regularly occupied. In offices where natural daylight is available try minimizing the use of office lighting. Use task lighting instead of full overhead lighting where possible.

Federal Notices

<u>Intergovernmental Review Notices (April 15st-30th, 2001)</u>
--

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

AGENCY: Federal Energy Regulatory Commission

CONTACT: N/A

TELEPHONE: N/A

E-MAIL: N/A

ADDRESS: Federal Energy Regulatory Commission, 888 First Street, NE,
Washington, D.C. 20426

DESCRIPTION: Final agency action on Project No. 1933-025. Name of project was changed from Santa Ana River (SAR) 1&2 to Santa Ana River 1&3. Southern California Edison's application to amend license for the SAR 1&3 is approved. The project's transmission line as described in Item (8) of the project's SAR3 description, and item (C) of license Article 203 are deleted. Aperture cards should be filed with the Secretary of the Commission, with the Commission's San Francisco Regional Office, and with the Bureau of Land Management's California State Office.

TELEPHONE: (415) 977-8445

E-MAIL: Pshannin@spd.usace.army.mil

ADDRESS: Regulatory Branch, 333 Market Street, San Francisco, CA 94105-2197

DESCRIPTION: No. 25872S, April 6, 2001. Myers Peninsula Company, LLC has applied for a Department of the Army permit to permanently fill 0.083 acre of Waters of the United States, for the construction of TerraBay Phase 3, in South San Francisco, San Mateo County, California. Application is being processed pursuant to Section 404 of the Clean Water act (33 U.S.C. 1344). Based on identified impacts a preliminary determination has been made that it will not be necessary to prepare an Environmental Impact Statement (EIS) for the subject permit application and this preliminary determination may be reconsidered if additional information is developed.

CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Monday, April 16, 2001</u>			
2001042081	Clawson Mine Nevada County Nevada City--Nevada Multiple Applications proposing: 1) A Use Permit for extraction of gold from previously stock-piled and surface gravels (from historic up-stream hydraulic mining activities) totaling approximately 9 acres; 2) A Reclamation Plan for the on-going restoration of the mined area (approximately 300,000 tons/year) and final restoration of the site; and 3) A Rezone of the 46.28 acre site to add the "ME" mineral extraction combining district to the existing "FR-40" Zoning.	CON	05/07/2001
2001042083	Rezone No. 2001-09 and Parcel Map No. 2001-12-Berberian Properties, LLC Stanislaus County Modesto--Stanislaus Request to rezone from expired PI (5) to a new Planned Industrial (PI) and create 52 lots of half- to one-acre parcels for a Planned Industrial Business Park.	CON	04/30/2001
2001041065	Alamo River Silt/Sedimentation TMDL, Basin Plan Amendment (CEQA Check) Regional Water Quality Control Board, Region 7 (Colorado River Basin), Palm Desert --Imperial The total maximum daily loads (TMDL) for the Alamo River sedimentation siltation identifies the total allowable sediment of loads discharging into the Alamo River.	EIR	06/12/2001
2001042077	639 & 699 Second Street San Francisco Planning Department San Francisco--San Francisco Effects related to land use, visual quality, population and employment, noise, air quality, (including wind and shadow), utilities/public services, biology, geography, water quality, energy/natural resources, and hazardous materials have been analyzed in the Initial Study and determined to be non-significant.	EIR	05/30/2001
2001044006	Coyote Valley Reservation Fee-to-Trust U.S. Department of the Interior --Mendocino The proposed Project would result in the transfer of the property from fee-tite to federal-trust for the Coyote Valley Band of Pomo Indians by the Department of Interior. There is no development proposed.	JD	05/15/2001
2000034005	Mammoth Yosemite Airport Expansion Project Mammoth Lakes, City of Mammoth Lakes--Mono The Town of Mammoth Lakes is proposing to construct a series of improvements at Mammoth Yosemite Airport, primarily for the purpose of enabling commercial jet air carriers service to operate at the Airport. The current proposal modifies an earlier airport expansion plan approved by the Town. The principal changes from the project previously approved are: 1) a widening of the runway and revision in the aviation demand forecast decreasing the total number of flight operations, and 2) increasing the number of passenger enplanements. <u>Documents Received on Monday, April 16, 2001</u>			
2000111133	Revised Dairy Element of the Kings County General Plan Kings County --Kings The proposed project, the Draft Revised Dairy Element of the Kings County General Plan (developed by the Kings County Planning Agency), presents a comprehensive set of goals, objectives, and policies to guide development, expansion, and operation of milk cow (bovine) dairies within the County. The Draft Revised Dairy Element and associated zoning ordinance amendments, hereafter collectively referred to as "the Element," is designed to accomplish two equally important major purposes. The first purpose is to ensure that the dairy industry of Kings County continues to grow and contribute to the economic health and safety and the environment. The second purpose is to ensure that the standards established in the Element protect public health and safety and the environment. The County has determined that the best way to accomplish these combined goals is to adopt a separate general plan element that establishes development and operational policies for the local dairy industry.	NOP	05/15/2001
2001041074	White Point Nature Preserve Los Angeles City Department of Recreation and Parks Los Angeles, City of--Los Angeles Establishment of a nature preserve at White Point Park to provide for passive recreation and educational opportunities, as well as protection of the sensitive biological species. The project includes land use improvements and establishments and restoration of native habitat. The planned land use improvements promote sustainability and integrity of the natural areas while providing for a mix of compatible passive recreation uses.	NOP	05/16/2001
2001042078	Water Treatment Plant Expansion Tracy, City of Tracy--San Joaquin The purpose of the proposed project is to provide additional treated water capacity to accommodate existing and planned future populations within the City of Tracy service area. Build out of the Tracy area under the City of Tracy Urban Management Plan/General Plan is anticipated to result in a projected population of approximately 162,000. Treated water demand in the service area is expected to increase proportionately as the City's population increases. To meet projected demands in the service area, the City will require additional treated water sources by the end of 2004. The existing John Jones Water Treatment Plant (JJWTP) provides a water treatment capacity of 15.0 MGD. The proposed expansion project would include improvements to the City's existing treatment capacity from the current 15 MGD by up to 30 MGD, to 45 MGD.	NOP	05/15/2001
2001042086	Bohemia Retail (EIAQ-3552) Placer County Planning Department Auburn--Placer Single phase development of approximately 107,920 square feet (sf) of retail space and 23,928 sf of outdoor garden center.	NOP	05/15/2001

2001042084	Caldwell Tentative Parcel Map 01T-8 Tuolumne County Community Development Dept. --Tuolumne Tentative Parcel Map 01T-8 to divide an 11.7+/- acre parcel into two parcels: Parcel 1 - 6.7 +/- acres and Parcel 2 - 5.0+/- acres. The project site is zoned RE-5:MX (Residential Estate, five acre minimum: Mobilehome Exclusion combining) under Title 17 of the Tuolumne County Ordinance Code. Located at 19722 Westview Drive, adjacent to the west side of the Confidence Ridge Subdivision. Access is provided to the project site by Westview Drive, which intersects Confidence Road approximately one mile south of the intersection of State Route 108 and Confidence Road. A portion of the southwest 1/4 of Section 10 and the northwest 1/4 of Section 15, Township 2 North, Range 16 East.	Neg	05/15/2001
2001042085	Palatine Hill Subdivision (S-5-00) Redding, City of Redding--Shasta The Project sponsor is requesting approval of a tentative subdivision map to subdivide 10.10 acres into 14 lots for single-family residential development. A waiver from the standard requirement for sidewalks is also being requested. Proposed lots range between 0.3 acres and 1.2 acres. The project would include construction on site of approximately 750 feet of new public roadway and utility improvements as necessary to serve each proposed lot. Off-site improvements would consist of minor concrete and pavement connection work at the intersection of the proposed road and Scenic Drive and the extension of a sanitary sewer main line approximately 800 feet through a neighboring public open-space area. Grading would be limited to the construction of the road at or near the natural grade and excavations necessary for utility lines. Proposed improvements would be constructed and all lots created in one phase. The project would also include as a mitigation requirement the relocation of an established pedestrian trail which currently bisects the site.	Neg	05/15/2001

1998111030	Groundwater Replenishment System Orange County Water District Fountain Valley--Orange The GWR System is a joint water reclamation project of OCWD and OCSD. The GWR System would take secondary-treated wastewater from the OCSD Reclamation Plant No. 1 and treat it to meet drinking water standards. The advanced tertiary treatment process would include microfiltration (MF), reverse osmosis (RO), and ultra violet (UV) disinfection systems. A portion of the highly treated, reclaimed water would then be pumped from the OCWD treatment plant in Fountain Valley to existing spreading basins in the City of Anaheim to recharge the groundwater basin and augment water supplies. The remainder of the highly treated water would also be used to expand the existing saltwater intrusion barrier and augment the supply for reclaimed water used by local irrigation projects and industrial customers. 2001048206	Project Anaheim Police Activities League (APAL) Center - A Grant Funded by the Office of Criminal Justice Planning Anaheim, City of Anaheim--Orange Project will provide an after-school sports and educational activities center for "at-risk" youth in the community. Grant Period 06/01/00 to 5/31/03.	NOE	
2001048207	Parking Information and Public Safety Building California State University Trustees --Sonoma The Public Safety Building located at the southwest corner of Redwood and Vine Street will house the Public Safety Department. The building would be 2,900 square feet. The structure system is wood frame and allows flexibility of interior space. The building exterior elevations reflect the architectural vocabulary of classical design. The base of the building is clad in cut stone with stucco accenting and metal standing seam roof. The Parking and Information Booth will be relocated at the south edge of lawn outside the Evert Person Theatre, just off of Redwood Drive. The proposed design is a single-story building with a gabled roof covering an attic and mechanical space. This simple building is an architectural datum that provides a setting for the larger architecture composition that is the Person Theatre. The building is approximately 144 square feet. The structural system is wood frame. The building design of the exterior elevations reflect the architectural vocabulary of classical design. The base of the building is clad in cut stone with stucco accenting and metal standing seam roof.	NOE	
2001048208	Sites Reservoir Saddle Sam Geologic Exploration Water Resources, Department of --Glenn, Colusa The proposed project involves drilling thirteen 3-inch diameter core holes near the Funks Creek/Hunter Creek watershed divide southwest of the community of Willows. The purpose of the proposed project is to collect basic geologic data on geologic substructure.	NOE

2001048209	Vaca Dixon-Ignacio Electric Transmission Line Access Road Repair and Soil Stability Project Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland --Solano Pacific Gas and Electric Company has proposed to perform maintenance to prevent further erosion near an access road and swale near its transmission line towers located west of Highway 80 in Solano County. An existing drainage channel will be cleaned and an area above the access road will be graded. Also, the swale downhill of the road will be graded and concrete rip rap and geotextile fabric installed. About 950 cubic yards of fill will be placed as part of the project.	NOE	
2001048210	Application of Pacific Gas and Electric Company to Establish Market Value for and to Sell Its Kern Facility Public Utilities Commission Bakersfield--Kern The Kern Facility is a non-operating power plant, consisting of two natural gas and oil fired units and associated equipment with a combined generating capacity of 140 MW. By order of the California Public Utilities Commission, Pacific Gas and Electric Company will return the Kern Facility to service for the benefit of the California ratepayers.	NOE	
2001048211	Fraud Regional Office, Benecia - Lease Existing Office Space Insurance, Department of Benecia--Solano The proposed project would lease approximately 14,900 square feet of existing office space for the Department of Insurance, Fraud Regional Office in Benecia. The space will house approximately 52 employees and will be used to coordinate the department's mandated insurance fraud activities for this region. Approximately 50 parking spaces are provided, and public transit is available.	NOE

2001048242	Live Oak Residence Septic Repair - Phase I (Profile Trenches) Parks and Recreation, Department of --Contra Costa Dig four soil profile trenches to determine proper size, placement, and construction of replacement septic field. Proposed septic system in the Live Oak Residence will serve three residences. Evaluation of results from profile trenches will be made in consultation with the design engineer and Contra Costa County Environmental Health Department representative. Initial field visit by District archaeologist and resource ecologist will occur prior to beginning of trenching. Features in the area of Live Oak Camp strongly suggest the presence of subsurface archaeological deposits. Therefore, test trenching will be done under the supervision of a district archaeologist; work will stop immediately until unadvertent finds can be evaluated. Shrubs and Manzanita will be avoided during testing and no testing will take place within the dripline of any trees.	NOE	
2001048243	Repair/Restore Windows - Headkeeper/Assistant Keepers Quarters Parks and Recreation, Department of --Monterey Repair and restore all windows in the Headkeepers Quarters and Assistant Keepers Quarters at Point Sur State Historic Park. Repairs will be made in a manner consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties. Once initial work is completed, maintenance to preserve and protect the windows will be ongoing.	NOE	
2001048244	Mt. Hermon Road Pavement Rehabilitation Project Scotts Valley, City of Scotts Valley--Santa Cruz Mt. Hermon Road is a major arterial road providing east-west access from Highway 17 to Highway 9. The road is heavily traveled by multi-axle trucks accessing the quarry located in the San Lorenzo Valley through Scotts Valley. The heavy traffic load, especially repeated flexing of pavement by the sand trucks, have resulted in several areas, posing a danger to motorists and bicyclists using this roadway. To correct the roadway pavement, the City will be performing work to include, but not be limited to, saw cutting the failed areas and removing the existing pavement from the base to the subgrade depth. This may include re-compacting the subgrade and placing full depth asphalt.	NOE	
2001048245	Pacific Bell Job Number LB(29)1659R Fish & Game #6 Riverside--Riverside The project proposes to excavate 966 square feet in asphalt, 584 square feet in dirt, 102 square feet in concrete to place four 4" telephone conduit, as described in the submitted application. SAA #: 6-2001-65	NOE

2001032053	Occidental CSD Water Project Occidental County Sanitation District --Sonoma A well of approximately 90 feet would be drilled near the site of the existing Camp Meeker well, on land owned by Camp Meeker Recreation and Park District. The source of the water is the underflow of the Russian River. The well casing would be sealed at a depth of 50 feet to prevent contamination. A 20 horsepower (hp) pump would be installed in the well. The pump would be designed to pump approximately 70 gallons per minute (gpm). The well would be located approximately 50 feet from the existing well, a distance that would prevent draw down. The project includes an application to the State Department of Water Resources (DWR) for an allocation of 70 gpm, and a petition to the Sonoma County Water Agency for an interim allocation until permanent rights are obtained. Occidental's peak water use is estimated at 60 gpm. From the connection at Hampton Road, the new main would be located primarily within the existing right-of-ways. All construction activities would be limited to the existing right-of-way. Materials used for construction of the pipeline would be imported to the site. Disposal material would be battled offsite to an approved site.	NOD

	Variations to the Land Division Ordinance. The site is designated SR by the Western Rosedale Specific Plan. The site is within the A (Exclusive Agriculture) Zone District. The SR map code designation is an urban designation intended for single-family detached housing, typical of tract developments. The purpose of the E (Estate) District is to designate areas suitable for larger lot residential living environments. Water is proposed to be provided by the Vaughn Water Company and sewer by individual septic systems with installed dry sewer lines for ultimate connection in County Service Area 71 to the City of Bakersfield sewer. The site access is from Hageman Road, designated a major street alignment by the Western Rosedale Specific Plan on the northern boundary of the property with a new half width local street on the western boundary. The western boundary street is not proposed to connect with the existing Three Bars Street, but to end inside the subdivision.		
2001041085	New University and College Extension Services Building Project California State University Trustees Long Beach--Los Angeles The project involves a master plan revision to the existing California State University Long Beach (CSULB) Master Plan to allow for the future construction of a new UCES Building. The new UCES building would be constructed to support ongoing programs offered through the existing CSULB's UCES Program. The building site is approximately 440 feet long and 70 feet wide, spanning the entire length of Parking Lot 12. The proposed building addition would be two stories in height and would encompass approximately 36,200 gross square feet. The athletic office currently occupying the northeast corner of the site would be removed to make room for the new building. In the future, the building may be extended further west by approximately 6,000 to 8,000 gross square feet to provide opportunities for expansion to meet the needs of the institution. The building would be located at the north end of the George Allen fields bordered on the north and east by parking lots, to the south and west by athletic fields, and to the northwest by the University Music Center. 2001048308	Emergency Suction Dredge Regulations Fish & Game Commission -- Pursuant to authority found in Section 5653.9 of the Fish and Game Code, the Department adopted regulations governing its suction dredge permitting process in 1994. Before issuing the 1994 regulations, the Department completed an Environmental Impact Report pursuant to CEQA describing the activity of suction dredging and its impacts. Summarized briefly, suction dredging is a method of mining gold in which sand and gravel from the bottom of a river are drawn through an intake nozzle, up a suction hose, and through a gold recovery system that usually consists of an open sluice box or enclosed trays equipped with steel baffles known as riffles. Suction dredging occurs in many rivers throughout California, but use is concentrated in the rivers of the Klamath Basin and North Coast or in the Sacramento-San Joaquin watersheds on the western slope of the Sierra Nevada. 	(36.7%), industrial (21.5%) and vacant (23.7%) properties outside the base along both sides of Watt Avenue, just east of the Main Installation, between Antelope Road and Interstate 80. Public uses, parking, easements and open space make up the remaining 17.1 percent. There are eight residential parcels with nine residential units in the Project Area. The Redevelopment Plan provides the Agency with powers, duties, and obligations to implement and further the program generally formulated in the Plan. Because of the long-term nature of the Redevelopment Plan and the need to retain flexibility, it does not present a precise plan or select from among possible specific projects for any specific area. The Redevelopment Plan presents a process and a basic framework within which specific plans will be presented, specific projects will be established, and specific solutions will be proposed, and by which tools are provided to fashion, develop, and proceed with such actions. The Redevelopment Plan provides a financing and implementation mechanism by which the Agency can utilize a range of projects and programs and work with residents, businesses, and property owners to alleviate the blighted conditions which exist in the project area.		
1988121914	Duck Creek Residential General Plan Amendment and Rezone Project Stockton, City of Stockton--San Joaquin Duck Creek Residential General Plan Amendment/Rezone Project (IS1-00) - (1) (a) an amendment to the General Plan Land Use/Circulation Diagram from Performance Industrial to Low/Medium Density Residential and (b) to add "Proposed Neighborhood Park" and "Proposed Elementary School" symbols; and (2) rezoning from E-P, Enterprise Performance District to R-1, Single-Family Residential District; and (3) tentative map for residential purposes; and (4) Development Agreement for property located east of the AT&SF Railroad tracks and south of Farmington Road. 1998121036	1999 Debris Basin Enlargement/Modification Program in the County of Los Angeles Los Angeles County --Los Angeles CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1601 (SAA # 5-140-99) of the Fish and Game Code to the project applicant, Los Angeles Department of Public Works. The applicant proposes to alter the streambed by excavating approximately 31,000 cubic yards of material from the northern hillside of the debris basin. Expanding the sediment retention capacity of the basin from 38,000 to 44,000 cubic yards, thereby increasing the level of flood protection for the downstream improvements. The project is located in the unincorporated Altadena Area in Los Angeles County.	NOD	
1999081105	Wild Animal Park Future Construction Program San Diego, City of San Diego--San Diego Resource Protection Ordinance Permit No. 99-0153 to allow future maintenance activities within the current Wild Animal Park boundaries and expansion of the Park through the year 2020. The 783-acre project boundaries cover the 652.2-acre current in-use Park area and a 157.8-acre expansion area contiguous with the existing Park limits within the 1,800-acre Wild Animal Park operating agreement area.	NOD	
2001011096	Ramacher Addition Project Fresno County --Fresno The proposed Ramacher Addition Project involves the acquisition and development of a 1.95-acre site located adjacent to the Fresno County Office of Educations' five-acre Beth Ramacher Educational Complex. The existing school currently serves approximately 55 special education students on a traditional schedule.	NOD	
2001021077	Sanderson Lift Station Replacement Project Eastern Municipal Water District San Jacinto--Riverside Eastern Municipal Water District is proposing to replace the District's existing Sanderson Lift Station. The 35 year old Sanderson Lift Station, which conveys raw sewage to the Hemet/San Jacinto Regional Water Reclamation Facility for treatment, is experiencing operational problems and is no longer reliable. In addition to the age of the facility, if the lift station were operating satisfactorily, it would only have adequate capacity to accommodate peak sewage pumping demand until the year 2003. The District has determined that it would be more efficient and economical to construct the new lift station with adequate capacity to accommodate the projected sewage generation rates.	NOD	
2001022066	Comfort Suites Oakley, City of Oakley--Contra Costa The project consists of a three-lot subdivision of a 4.86 parcel, with the construction of an 82-room hotel on the newly created parcel 1, a 2.02-acre parcel.	NOD

2001042120	Edgewood Road Extension (EIAQ-3607) (Tiered From SCH#1991102084) Placer County Planning Department Auburn--Placer Construction of new roadway from SR 49 at Edgewood Road eastward approximately 700 feet to connect to Alta Mesa Drive.	Neg	05/23/2001
2001042121	Locksley Lane Connector Road (EIAQ-3580) Placer County Planning Department Auburn--Placer Construction of a new roadway, 28 ft width with 2 ft aggregate base shoulders. Roadway is approximately 1,000 ft long. It will connect to SR 49 at the existing Quartz Drive traffic signal and extend easterly and then northerly to Locksley Lane.	Neg	05/23/2001
1998032004	Tahoe City Public Utility District, Community Trail Intertie Tahoe City Tahoe City--Placer Pedestrian and bicycle trail and acquisition of real property.	NOD	
1999072092	Capital Public Radio Broadcast Tower California State University, Sacramento Sacramento--Sacramento The proposed project is the construction of a 295-foot lattice tower. Capital Public radio will use the tower of broadcasting. The tower will be surrounded by the future Capital Public Radio Building. The proposed 295-foot tower will replace the 140-foot tower previously shown on the Campus Master Plan at this location. The facility is to be located west of the intersection of State University Drive East and College Town Drive, south of State University Drive South, North of Folsom Boulevard, and east of the Union Pacific Railroad tracks, Sacramento, CA. NW 1/4 Section 15, T8N, R5E, MDBM.	NOD	
1999101059	Median Widening on State Route 118 from Tapo Canyon Road to Rocky Peak Road, in the City of Simi Valley Caltrans #7 Simi Valley--Ventura Construct mixed-flow lanes in the median of State Route 118 from Tapo Canyon Road to the LA County line.	NOD	
2001011053	Reconstruction of a Caltrans Maintenance Station at Old Bolsa Chica Road Caltrans #12 Seal Beach, Westminster--Orange The proposed project is the reconstruction of the existing Bolsa Chica Maintenance Facility, involving demolition and construction for a modern office building and storage bays, an equipment service center chemical storage spaces, concrete bins, emergency eyewash rack, restrooms with handicapped accessibility, paved parking, and other minor but necessary features. Grading and A/C overlay will occur, along with trenching and possible removal of two underground sewage tanks.	NOD

	outfall pipe next to an existing 60-inch diameter outfall. The new outfall will carry storm water run off from Phase I for the proposed industrial park. Pre-construction surveys for burrowing owls will be done within 7 days of construction. If there is water in the worksite at the time of construction, a water diversion device will be implemented. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2000-1093 pursuant to Section 1603 of the Fish and Game Code to the project operator, John Bertenshaw/Catellus Development.		
1996052016	Pacific Commons Fremont, City of Fremont--Alameda The project site, Flood Control Channel N-1 is located adjacent to the Pacific Commons development in Fremont, Alameda County Assessor Parcel Number 525-1326-007. The operator proposes to install a grouted rock rip rap apron, a concrete cutoff wall and three 72-inch diameter concrete pipes. The new outfall will carry storm water run off from phase I for the proposed industrial park. Pre-construction surveys for burrowing owls will be done within 7 days of construction. If there is water in the worksite at the time of construction, a water diversion device will be implemented. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2000-1387 pursuant to Section 1603 of the Fish and Game Code to the project operator, John Bertenshaw/Catellus Development.	NOD	
1999042113	Unifirst Industrial Laundry Expansion Project Stockton, City of Stockton--San Joaquin The proposed project would expand an existing laundry plant and offices, for properties located south of Poplar Street and west of Hunter Street. The project would remove existing commercial buildings, including all or portions of the existing laundry plant. Four residences, including three in the Magnolia Historical Preservation District would be removed. This would require a boundary change to Magnolia Historic District to exclude portions of the project site or approval of a Certificate of Appropriateness for demolition of the residences. The project would require a General Plan amendment from Administration Professional designation to Commercial designation and a rezone from C-R, Commercial-Residential District to C-3, Central Business District.	NOD

<u>Documents Received on Wednesday, April 25, 2001</u>			
2000122065	Vaughn Modification to Zertuche Parcel Map Subdivision (PMS-70-90-M) Humboldt County Planning Department Eureka--Humboldt Modification to the Development Plan for Parcel Map 3026 (PMS-70-90) to permit the remodel of an existing single family dwelling. The remodel will increase the building footprint 630 square feet over the 500 allowance permitted by the County's Open Space regulations for existing structures located within the Streamside Management Area buffer for Essex Gulch Creek. The applicant seeks a reduction of the SMA width in the area of the building addition to be off-set by revegetation of an approximate 3,200 square foot area surrounding the residence that was previously converted to lawn. The additional building footprint will not result in the removal of any riparian vegetation and the enhanced riparian buffer strip will expand the natural vegetation between the house and sensitive resource area.	NOD	
2001022039	Gary and Julia Wade (NewCom Wireless) Use Permit (UP-00-26) South Yreka Site Siskiyou County Planning Department --Siskiyou The applicants request approval for a Use Permit to construct and operate an unstaffed cellular transmission site with facilities to include a 90-foot high monopole antenna support structure supporting two sectors of non-reflective panel antennas and two microwave dishes. The project also includes construction of an equipment shelter. As part of the project, drought-resistant native vegetation would be planted around the facility to enhance the screening effectiveness of surrounding vegetation to minimize the visibility of the facility.	NOD	
2001031107	Purple Tiger 8H Division of Oil, Gas, and Geothermal Resources Wasco--Kern Request to drill and test an exploratory well and identifies 14 contingent exploratory sites that may or may not be drilled depending on the outcome of well/s drilled. Each site is approximately 2 acres in size.	NOD	
2001032035	B & J Drop Box Sanitary Landfill Solid Waste Permit Revision Solano County, Department of Environmental Planning Services Vacaville--Solano Changes in the landfill design and current operations, a change in the hours of operation, use of alternative daily cover materials, and an increase in the permitted amount of friable asbestos to 2,500 tons per month at the B & J Drop Box Sanitary Landfill (SWIS No. 48-AA-0002).	NOD	
2001049026	Red Tail Estates (Santa Rosa Creek Storm Drain Outfall) Santa Rosa, City of Santa Rosa--Sonoma This project involves the construction of a storm drain outfall to Santa Rosa Creek off Melita Road in Santa Rosa, Sonoma County. The storm drain will drain a new 16 lot subdivision between Melita Road and Highway 12. The storm drain outlet will be constructed to the standards of the Sonoma County Water Agency. The outfall will consist of a 30" pipe with approximately 5 cubic yards of rock rip-rap to stabilize the outfall. The outfall has been located to avoid impacts to trees. About 600 square feet of blackberry, poison oak, and ivy will be disturbed during the	NOD

2001048328	<p>Culvert Installation Project Fish & Game #3 Healdsburg--Sonoma</p> <p>This project involves the construction of a new access road and cart path for the Tayman Park Golf Course. This construction requires a crossing of a small ephemeral pipe with a combined length of approximately 90 feet. With the rock rip-rap energy dissipator downstream of each of the two lengths of culvert, a total of about 140 feet of ephemeral stream will be disturbed. Approximately 1,350 cubic yards of fill will be placed over the culverts to raise the road and cart path to the required elevation. Upon project completion, the fill over the culverts adjacent to the road and cart path will be treated to control erosion and reestablish the grassland vegetation. Issuance of a Streambed Alteration Agreement Number R3-2001-0240 pursuant to Fish and Game Code Section 1603.</p>	NOE

2000061066	Mulholland Water Pipeline Los Angeles, City of --Los Angeles The proposed project involves 15,200 linear feet (approximately 29 miles) of new 16-inch diameter piping along paved and unpaved portions of Mulholland Drive from Picasso Avenue to Greenbriar Drive in Woodland Hills. The pipeline would convey supplemental water from the existing corbin Tank to residents living in the Woodland Hills and southeastern San Fernando Valley. A subsurface regulating station, data collection cabinet and valves would also be constructed. The proposed project would take approximately 18-20 months to complete.	EIR	06/11/2001
2000101048	San Diego Office Building Replacement - Department of Transportation District 11 Caltrans #11 San Diego--San Diego Caltrans District 11 is proposing to develop a consolidated headquarter office complex to include approximately 301,000 gross square feet of new office space on approximately 11 acres of land. The purpose of the proposed facility is to consolidate existing Caltrans functions currently found in several locations in the project vicinity, including the existing facility on Juan Street, in a facility that meets all current building codes and regulations. The project would include parking for approximately 815 vehicles.	EIR	06/11/2001

2001021070	P&G Construction Residential TPM San Diego County --San Diego The proposed project is the minor subdivision of a 1.70-acre parcel into two single-family residential parcels with areas of 0.64 and 1.06 acres, respectively.	NOD	
2001022100	Amendment of Rule 4662 (Organic Solvent Degreasing Operations) San Joaquin Valley Air Pollution Control District --San Joaquin The 1994 San Joaquin Valley Unified Air Pollution Control District Ozone Attainment Demonstration Plan committed the District to Amend Rule 4662 to achieve additional emission reductions. In order to achieve additional emission reductions the following amendments are being proposed: a) cold cleaners use organic solvents that meet a volatile organic compound (VOC) limit of 50 grams per liter or less, b) vapor degreasers have superheated vapor zones, and c) vapor degreasers are equipped with freeboard chillers and maintain freeboard ratio at 1.0. VOC emissions from the degreasing source categories are estimated at 13.05 tons per day. District staff expects implementation of proposed amendments to Rule 4662 to reduce VOC emmissions by 11.28 tons per day.	NOD	
2001032042	Pepsi Cola Bottling Company Remedial Action Plan Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Eureka--Humboldt The Remedial Action Plan calls for natural attenuation of gasoline, benzene, ethylbenzene, toluene, xylene, and methyl tert butyl ether (MtBE) in soils, groundwater, and surface water. Future construction or development activities onsite will be limited so as to avoid any possible negative impacts on human health. Adequate groundwater monitoring will occur for two years and surface water monitoring will be for five years to provide documentation of continuing natural attenuation of the petroleum contaminated soils and groundwater.	NOD

2001048412	Owens River Gorge Penstock Outage Fish & Game #7 --Mono Reduce flows originating at the Upper Gorge Power Plant tailbay release structure to accommodate draining of penstock for repairs. Temporary flow schedule and contingency plans are contained in the streambed alteration agreement.	NOE	
2001048413	Round Valley Diversions Fish & Game #7 --Mono Replacement of 6 wooden flow control structures in diversion channels with concrete headwalls and diversion gates, bolting of two additional diversion gates to existing concrete headwalls, install one 3' Parshall flume and flow recording device, and hand dig one 50' shallow overflow channel.	NOE	
2001048414	Temporary Emergency Hazardous Waste Treatment Permit Toxic Substances Control, Department of --Lassen Grant of a temporary emergency Hazardous Waste Treatment Permit to Sierra Army Depot to explode in place eight unexploded ordnance. The items are Hexachloroethane smoke projectiles discovered during a scheduled search for unexploded ordinance in the area of the Depot routinely used for open burn/open detonation of waste military munitions. The emergency permit is needed because normally this type of item would be shipped to another facility for treatment. However, the U.S. Army and the Department of Toxic Substance Control have determined that the projectiles are not safe to move to the demolition area because of their deteriorated condition. The items were discovered on April 2, 2001. The permit is effective from April 9 to April 20, 2001.	NOE

2001041122	Brian Holthouse Minor Subdivision-MS 1110-99 San Benito County San Juan Bautista--San Benito Division of existing 15.58 acre lot into 2 parcels (5 ac. and 10.58 ac.) in order to create a new building site. Domestic water from individual well and wastewater disposal by individual on-site septic system.	Neg	05/28/2001
2001041123	Automated Weather Observation System (AWOS) California City California City--Kern Construction of Automated Weather Observation System (AWOS).	Neg	05/28/2001
2001041125	Choufa Minor Subdivision San Diego County, Department of Planning and Land Use --San Diego The project proposes to subdivide 14.92 acres into four parcels with one remainder parcel for future single-family residential homes. The proposed project will be served by the Valley Center Union School District, the Escondido Union School District, the Valley Center Fire Protection District, and the Valley Center Municipal Water District. Driveways will be constructed to enable the parcels to take access directly off of Pauma Heights Road, an existing publicly maintained road. The project will require open space easements for protection of Southern Mixed Chaparral and riparian habitat over portions of all four lots and the remainder parcel.	Neg	05/28/2001

2001042126	Barton Hospital Helipad Relocation South Lake Tahoe, City of South Lake Tahoe--El Dorado The proposed project consists of replacing an existing ground-level helicopter landing site with a heli-dock structure located on the existing hospital building. Helicopters provide air ambulance services to the hospital. The project is necessary because the existing helicopter does not meet CalTrans standards for such facilities. The new facility will meet CalTrans requirements with the removal or topping of 106 trees within the proposed flight paths. Trees adjacent to the flight path will remain and be marked by obstruction lights on 120 feet steel poles. All new structures associated with the project will be located on the hospital property. An estimated 30 trees located off-site on property west of 4th Street will be topped or removed. Authorization from the affected off-site property owner will be required. No expansion of service, number of flights or increase in employees is proposed. No helicopter fueling will occur at the new landing site.	Neg	05/28/2001

<u>Documents Received on Monday, April 30, 2001</u>			
2001048456	Tinemaha Creek Beaver Dam Removal Fish & Game #7 --Inyo Removal of beaver dam by hand crews, grade-all and/or backhoe. The existing 12-foot dam will be removed in 1-foot layers to allow the water level and water turbidity to settle and clear. Minor maintenance along a 1.1 mile stretch of Tinemaha Creek where minor removal of vegetation and debris would occur. All work will be done from the road shoulder and all equipment will be kept within the Inyo County Road Department right-of-way.	NOE	
2001048457	Agreement No. R4-2001-0037; Removal of Riparian Vegetation at 32007 River Knolls Road (Madera County Parcel No. 054-140-028) Fish & Game #4 --Madera The project will include the clearing of brush, weeds, and dead wood from the subject property adjacent to the Fresno River. Approximately 200 linear feet of river bank will be affected.	NOE	
2001048458	Agreement No. R4-2001-0053; Pond Construction at APN No. 138-061-45 Fish & Game #4 --Fresno The Operator will enlarge an existing depression and construct a dam in order to impound water and create a farm pond approximately 100 feet long by 100 feet wide and from 5 to 10 feet in depth. The dam will be constructed of native soil and rock and sealed with a cement slurry. The bottom and sides of the pond will be sealed with bentonite.	NOE	
2001048459	Agreement R4-2000-0149; Road 17 1/2 at Berenda Creek, Bridge Replacement Fish & Game #4 Madera--Madera The Operator will replace the existing bridge with a new 62-foot long by 29-foot wide reinforced concrete slab, two-span bridge. The Operator will remove the old bridge deck and bridge supports from the site. Concrete piles will be constructed and placed to support new bridge abutments at the top of Berenda Creek banks. Four (4) new 15-inch support piles will be placed in Berenda Creek. The channel of Berenda Creek will be graded to create a uniform access to the work area. Four hundred feet of asphalt roadway will be built at each end of the new bridge and tied into the existing roadway.	NOE	
2001048460	Agreement R4-2000-0173; Sand Removal at Turnback Creek Bridge Fish & Game #4 --Tuolumne The Project will remove accumulated sediment and debris from immediately below the bridge outlet to 25 feet downstream of the bridge outlet, using an excavator. The excavator will work from the stream bank. Vegetation removal from the Project area will be minimal. Debris removed from the stream will be loaded into dump trucks and disposed of in a legal manner.	NOE
